

HAZARDOUS ITEMS ARE NOT PERMITTED

Hazardous items may endanger the safety of an aircraft, passengers and crew. These must not be carried in (or as) passenger or crew hold baggage or in hand luggage. Dangerous goods such as lithium batteries or pyrotechnic devices, are totally forbidden. Disabling devices such as mace, pepper spray, etc. containing an irritant or incapacitating substance are also prohibited.

If you have any of the following items, these are not permitted onboard an aircraft:

Items not permitted include:

- Explosives - ammunitions, fireworks, flares etc
- Compressed gases (flammable, non-flammable, deeply refrigerated and poisonous) such as camping gas and aerosols
- Flammable liquids such as lighter fuels, paints and thinner
- Flammable solids such as matches and articles which are easily ignited such as firelighters
- Substances liable to spontaneous combustion
- Substances which on contact with water emit flammable gases
- Oxidising substances (such as bleaching powder and peroxides)
- Poisonous (toxic) and infectious substances such insecticides, weed killers and live virus materials
- Radioactive materials
- Corrosives such as mercury (which may be contained in thermometers) acids, alkalis and wet cell batteries
- Briefcases and security type attaché cases with installed alarm devices; or incorporative lithium batteries and/or pyrotechnic material
- Magnetised materials and miscellaneous dangerous goods as listed in the IATA Dangerous Goods Regulations
- Personal medical oxygen devices that utilise liquid oxygen
